

Instructiunea repetitiva While

Va rog sa descarcati aplicatia gratuita code blocks de pe site-ul <http://www.codeblocks.org/downloads/26#windows> daca nu cumva il aveti instalat deja. Puteti deasemenea sa lucrati on line daca doriti.

Adresa este: https://www.onlinegdb.com/online_c++_compiler

Scrieti programul in c++ pentru urmatoarea aplicatie:

Ce va afisa programul alaturat?:

The screenshot shows a web browser window with the URL `onlinegdb.com/edit/Hy7rsCZqL`. The browser's address bar and several tabs are visible. The main content area displays a C++ program in a dark-themed editor. The program is named `main.cpp` and contains the following code:

```
9  #include <iostream>
10 using namespace std;
11 int main()
12 {
13     int n,c=0;
14     cout<<"Introduceti n= ";
15     cin>>n;
16     while (n!=0)
17     {
18         c=c+1;
19         n=n/10;
20     }
21     cout<<"Numarul de cifre este "<<c;|
22
23     return 0;
24 }
```

Rulati programul pentru doua numere cu ordin de marime diferit,
faceti cate o captura de imagine(printscreens) si le salvati cu
numele 8C Nume familie2A si 8C Nume familie2B (ex:
8C Blaga2A.jpg 8C Blaga2B.jpg)

Trimiteti fisierele pe adresa lianarusstar@gmail.com

Termen:21.05.2020

[Spor la lucru !!!](#)
